

Participation of Copin Group at the III Congress of Geologists of Macedonia

During the period from 30 September to 2 October 2016, the III Congress of Geologists of Macedonia was held in Strumica, organized by the Macedonian Geological Society. The Congress was attended by more than 150 representatives from Macedonia, Serbia, Croatia, Bosnia and Herzegovina, Albania, Bulgaria, and other countries.

Copin Group was represented by the following specialists:

- Gennadiy Sychoy – Vice-Chairman of Board of Copper Investments,
- Boshko Sibinovski – Director of Sardich MC,
- Dmytro Siroshtan – Chief Geologist at Copper Investments,
- Kiril Jovanov – Chief Geologist at Sardich MC.

Copin Group presented two papers:

1. New data on the Cenozoic volcanism and ore mineralization of the valley of River Petroshnica, NW part of the Kratovo-Zletovo volcanic area, Republic of Macedonia.
2. Mine Complex Kazandol.

The paper titled *Mine Complex Kazandol* aroused great interest among the many participants present. During the presentation, several specialists from Macedonia, Serbia, Croatia, Bosnia and Herzegovina, and Albania showed active interest in the history of development of the project, the current state, and the future prospects. Several specialists expressed a desire to visit the site and become acquainted with it in person.

During the activities of the Congress, Sardich MC received gratitude on behalf of the Macedonian Geological Society for the support in organizing and conducting the III Congress of Geologists of Macedonia.
