

## PRESENTATION ABOUT THE ENVIRONMENTAL IMPACT OF KAZANDOL MINE FOR CHILDREN

On 29.11.2016 the Chief Technologist of Kazandol Mine - Mr. Zoran Vuchkovski - gave a presentation on the Environmental Impact of Kazandol Mine to children living in the village of Kazandol. The presentation was conducted in Macedonian and Turkish so as to be understandable to all attendees.

During the presentation, a full review of the technology applied and the equipment to be installed and used during the operations of Kazandol Mine was given. The children and all other attendees at the presentation were given explanations about the exploitation and production process, and the types of equipment and machinery to be used in Kazandol Mine.

As a gesture of good cooperation between the local residents and Kazandol Mine, and on the occasion of New Year holidays, the representatives of Sardich MC: the Finance Director Mr. Emil Buhov, and the Branch Office Manager Mrs. Zora Todorovska gave New Year's presents to the children in the School where the presentation was held.
