

In cooperation with the local community in the village of Pirava, **Sardich MC** performs repair of the source of drinking water

Dear citizens,

Sardich MC took on the responsibility of clearing the clogged water source in the Municipality of Valandovo used for supplying drinking water to the local residents.

The Mayor of the Municipality of Valandovo responded positively to the Company's intention to help solve this problem and appointed a responsible person from the local community in Pirava to assist during the repair work. Mayor's Notice is enclosed with this press release.

The clearing and restoration of the above-mentioned water source started today, May 19th 2017. Sardich MC is always glad of any opportunity to be of service to the local residents.

REMEDATION OF THE WATER SOURCE IN THE VILLAGE OF PIRAVA
