

Open Doors Day became traditional for our office in v. Pirava, where people from Valandovo municipality can receive detailed information on the progress of construction of Mining complex Kazandol.

To all concerned citizens, the specialists from our company gladly and in great detail are explaining the measures undertaken for ecologic safety of the object and production processes, causing no harm to the citizens' health and to the agriculture of the region.

In order to further improve the awareness of the citizens on the issues in concern, we established another day for such visits.

Starting from May 2nd, we expecting to meet Valandovo citizens not only **Wednesday**, but also **Tuesday**, from **10:00 to 12:00 o'clock**.

We will be glad to address all your questions and concerns.
